OIT/TRANS.  
LOGGED

31 October 1986

MEMORANDUM FOR: Director of Information Technology  
Chief, Information Management Staff/FSG

FROM: [redacted] 25X1  
Chief, OTS Support Group

SUBJECT: Proposed Wang ICT-ALLIANCE Interface [redacted] 25X1

REFERENCES: A. Memo for C/IMS/FSG fm C/OTS/SG, dtd 12 Aug 86, Subject: 25X1  
Proposed Office of Technical Service Test Bed [redacted]  
B. Memo for C/OIT/DFG fm C/OTS/SG, dtd 29 Aug 86, Subject: 25X1  
Wang ICT/Alliance Document Transfer [redacted]

1. Please provide a Wang ICT to Wang ALLIANCE interface capability at South Building. The Office of Technical Service (OTS) needs to transfer Wang documents between South Building and [redacted]. These sites all use the ICT for staff communications. OTS also needs to transfer Wang documents and certain staff communications to its contractors. Two ICTs are already on site at South Building. [redacted] 25X1

2. OTS has agreed to provide a test bed for the TERP-Wang interface under development by IMS and we anticipate that that activity will begin shortly. Since we will soon have all the necessary equipment and telecommunications paths, suggest OTS also provide the test bed for any ICT-ALLIANCE interface development at the same time. We believe this will work to everyone's advantage. This memo replaces our previous requirement, which was contained in Reference B. [redacted] 25X1
